

- Compact & Ideal solution for Book Covers, Box Files, Photo Albums, Clip Pads, Game Boards, Photo Album window pasting & folding, Note Books, Diaries in different sizes. Easy format change over. Window pasting and folding also possible.

AUTOMATIC CASEMAKER ACTIVE DUAL PLUS

Features

- Dual Operators
- All the benefits of the 'Active Dual Plus' model, with increased production
- Extremely accurate automatic board spotting action
- Exceptionally wide format range
- Cost effective, simple and reliable

MEGABOUND™
knowledge of binding

AUTOMATIC CASEMAKER ACTIVE DUAL PLUS

Introducing our state-of-the-art Case Maker, where every operation is seamlessly executed by the operator positioned in front of the machine. As the cover material is fed into the gluing unit, it receives a precise coating of hot gelatin glue, ensuring optimal adhesion for a professional finish.

With intuitive foot switches, operators maintain precise control over the air suction plate, guaranteeing perfect registration of the cover material. In the Active Dual Plus model, suction bars automatically position board pieces onto the cover material with unparalleled accuracy.

Turning in the cover material on all four edges is accomplished in just two passes, facilitated by brushes and pressing rollers for a flawless result. Notably, the Active Dual Plus model excels in versatility, effortlessly handling cases with central window cut-outs, ideal for photo album production. Upon completion, the final product smoothly exits to the rear of the machine on an inclined delivery table, marking the conclusion of a meticulously crafted binding process. Experience efficiency, precision, and versatility with our Case Maker series, setting new standards in binding technology.

Technical Data

Min. case size	150mm x 160mm
Max. case size	450mm x 800mm
Paper thickness	80gsm - 170gsm
Board thickness	1.5mm - 5mm
Turning-in width	15mm - 20mm
Production	6 to 9 cases/min (Approx)
Glue	Hot / Cold (Optional)
Power	5.5HP, 3 Phase, 415 V
Dimensions	H 1300 mm x L2500mm x W 1400 mm
Weight	800 Kgs.
Gluing System	Bottom
Man Power	Two
Materials	Paper, Laminated Paper, Plastic coated Paper, Cloth etc.,
