

- Compact & Ideal solution for Book Covers, Box Files, Photo Albums, Clip Pads, Game Boards, Photo Album window pasting & folding, Note Books, Diaries in different sizes. Easy format change over. Window pasting and folding also possible.

## AUTOMATIC CASEMAKER ACTIVE DUAL

### Features

- Dual Operators
- No adjustment necessary for size changes
- Each cover can be of a different size
- Cost effective, simple and reliable
- Exceptionally wide format range

**MEGABOUND™**  
knowledge of binding

## AUTOMATIC CASEMAKER ACTIVE DUAL

Our Case Maker offers seamless operation, placing control squarely in the hands of the operator stationed in front of the machine. Effortlessly guiding the cover material into the gluing unit, the operator ensures an even coating of hot gelatin glue for optimal adhesion. With intuitive foot switches, precise registration of the cover material and activation of the board register bars are effortlessly managed, facilitating accurate manual placement of board pieces.

Turning in the cover material on all four edges is achieved with remarkable efficiency, requiring just two passes by the operator. Enhanced by brush rollers and pressing rollers, this process ensures a flawless finish. Notably, our 'Active DUAL' model is equipped to handle cases with central window cut-outs, ideal for photo album production. Upon completion, the final product smoothly exits to the rear of the machine on an inclined delivery table, marking the culmination of a meticulously crafted binding process.

## Technical Data

Min. case size	150mm x 160mm
Max. case size	450mm x 800mm
Paper thickness	80gsm - 170gsm
Board thickness	1.5mm - 5mm
Turning-in width	15mm - 20mm
Production	5 to 8 cases/min (Approx)
Glue	Hot / Cold (Optional)
Power	4.5HP, 3 Phase, 415 V
Dimensions	H1025 mm x L2500mm x W 1000 mm
Weight	650 Kgs.
Gluing System	Bottom
Man Power	Two
Materials	Paper, Laminated Paper, Plastic coated Paper, Cloth etc.,
