## Active 'PLUS' Features

- All the benefits of the Active plus model, with increased production
- Extremely accurate automatic board spotting action
- Exceptionally wide format range.
- Cost effective, simple and reli-able.

## AUTOMATIC CASEMAKER ACTIVE PLUS

Introducing our cutting-edge Case Maker Active series, meticulously crafted to elevate your binding operations with unmatched efficiency and precision. Engineered with a keen focus on operator comfort and control, this innovative series ensures seamless execution of all tasks by the operator stationed in front of the machine. Kicking off the process, cover material is effortlessly guided into the gluing unit, where it receives a consistent coating of hot gelatin glue, guaranteeing optimal adhesion for a sleek, professional finish.

With intuitive foot switches at their disposal, operators command full control over our Active model, facilitating flawless registration of cover materials with the air suction plate. Guided by precision-engineered suction bars, board pieces are meticulously positioned onto the cover material, ensuring impeccable alignment with each pass.

Experience unparalleled efficiency as the cover material undergoes turning-in on all four edges in just two passes, seamlessly facilitated by precision brushes and pressing rollers. Adding to its versatility, our Active Plus model effortlessly accommodates cases with central window cut-outs, catering perfectly to the demands of photo album production. Upon completion, the final product gracefully exits to the rear of the machine on an inclined delivery table, primed for seamless integration into your subsequent production stages. Elevate your binding process to new heights of precision and performance with the Case Maker Active series, where every detail is meticulously crafted for exceptional results.

## Technical Data

Min. case size	150mm x 160mm
Max. case size	450mm x 800mm
Paper thickness	80gsm- 170gsm
Board thickness	1.5mm- 5mm
Turning-in width	15mm- 20mm
Production	5 to 8 cases/min (Approx)
Glue	Hot / cold (Optional)
Power	4.5HP, 3 Phase, 415 V
Dimensions	1300 mm x L1600mm x W 1400 mm
Weight	600 Kgs.
Gluing System	Bottom
Man Power	One
Materials	Paper, Laminated Paper, Plastic coated Paper, Cloth etc.,
