### QUICK BOX

#### Unleash Efficiency and Flexibility with Megabound's ON DEMAND Corrugation Box Making Machines

In a world where business dynamics are ever-changing, adaptability and efficiency are the keys to success. Megabound, a trailblazer in post-press machine manufacturing, has taken a giant leap forward with the introduction of their groundbreaking ON DEMAND corrugation box making machines. These state-of-the-art machines are poised to redefine the packaging industry, addressing the pressing need for rapid, efficient, and flexible corrugated box production.

Benefits of ON DEMAND Corrugation Box Making Machines: Megabound's "QUICK BOX" ON DEMAND corrugation box making machines offer several advantages to businesses. First and foremost, the ability to produce boxes on-demand helps optimize inventory management, reducing storage costs and minimizing waste. These machines also offer rapid setup and changeover times, allowing for quick production runs and customization options. Additionally, Megabound's machines ensure superior box quality, precise cutting, and folding, resulting in strong, aesthetically pleasing, and functional corrugated boxes.

### Features

- Quick Box is a fully automatic carton box making machine, suitable for box plants with small quantity orders and big-size cartons, which effectively solves the problem of scattered orders.
- It can also provide on-demand corrugated packaging solutions for box factories, furniture, hardware etc.

### Technical Data

|                          |                                     |
|--------------------------|-------------------------------------|
| Corrugated board type    | Universal Type                      |
| Cardboard thickness      | 2 - 5mm                             |
| Cardboard density range  | Up to 1200g/m <sup>2</sup>          |
| Max. board size          | 1700 width X unlimited length       |
| Min. board size          | 200 mm width X 650mm length         |
| Production Capacity      | 5-7 pcs/min. dep. on size and style |
| Slotting knife           | 2 pcs X 500mm length                |
| Vertical cutting knife   | 4                                   |
| Scoring/creasing wheel   | 4                                   |
| Horizontal cutting knife | 1                                   |
| Power supply             | 415V max. 7kW, 50/Hz                |
| Air Pressure             | 6 - 7 Bar                           |
| Dimension                | 2750 (W), 1250 (L), 1450mm (H)      |
| Gross Weight             | 1500 kg                             |
| Automatic paper feeding  | Lead edge feeder                    |
| Air Consumption          | 75L/min.                            |
| Box styles               | More than 60 Fefco codes            |
