

ROTARY BOARD CUTTER

Features

High-precision accurately angled cutting of case boards at top speeds using the rotary board cutter for lengthwise and crosswise cuts.

Easy operation with steplessly adjustable feed and cutting speed. The strip magazine for cutting blanks is quick and easy to attach. Slippage-free board feed to pull-in rolls made of an effective rubber/steel combination.

Technical Data

Board format minimum	- 600 mm
Board format maximum	- 1,200 mm
Cutting Width minimum	- 55 mm
Cutting Width Maximum	- 1,150 mm
Finished size Width x Length Min.	- 55 x 150mm
Finished size Width x Length Max	- 1,150 x 450 mm
Board Thickness	- 1 - 4 mm
Mechanical Speed	- 30 - 100 meters/min
